The theater is currently hiring for all positions, and will announce additional opening details in the coming weeks.

The sophisticated boutique theater features nine auditoriums across two stories, in-theater dining and a bar and lounge on the main level. The 41,000 sq. ft. theater is located on the east side of the town center. Positions now available include concierge, ushers, servers, runners, bartenders, housekeeping and more. Among the unique offerings of Silverspot Cinema is its cultural programming. The company offers a range of cinematic viewing selections, which – in addition to the best Hollywood productions – include independent films; live showings of operas, concerts and theater; genre-centric film series; special in-house cultural events; and more.

With a premium dine-in-theater service, guests can expect a sensory gourmet experience featuring an elevated American fare menu developed in partnership with New York-based Craveable Hospitality Group. In addition, Silverspot Cinema will debut its new S Bar cocktail lounge concept at the Town of Brookfield location, offering indoor seating for more than 70 guests that expands onto an outdoor patio for additional seating in warm weather.

“We are excited to present a refined and modern American menu, with offerings for all diners alike. From lighter fare such as shrimp lettuce wraps, tuna tartare and fresh salads, to more robust options consisting of flatbreads, hearty sandwiches and filet mignon, all are available and delivered right to your seat,” said Stephen Goglia, president and CEO of Craveable Hospitality Group. “Our partnership with this leading movie theater operator now serves as the synergy between viewing and dining for a full sensory experience. CHG is proud to be lending its culinary expertise, to be part of the cinematic revolution, and to support Silverspot’s nationwide growth.”

Auditoriums will feature custom-designed plush seats that fully recline with three levels of adjustable heating, a table for in-theater dining and a call button for in-theater service. Silverspot offers state-of-the-art technology in all auditoriums, including Barco Laser Projection and Dolby Surround Sound Systems. The theater will also offer direct elevator access to its lobby from The Corners’ expansive covered parking, providing protection from inclement weather.
